Consciously Create Your Business Trajectory!

Take Control of Your Success -- Rather Than Leave It To Fate

For entrepreneurs, business owners and managers, sales managers, home-based business operators

Six Steps to Unlock Your Unlimited Untapped Potential

Wouldn't life be better if you could just create a blueprint for your professional life and everything would develop nearly as you envisioned?

You indeed have this power and Jackie Lapin is a writer, motivational speaker, entrepreneur and powerful visionary who is waking up people to their ability to take charge of their lives by Consciously Creating their future. She calls people to step up to the plate and set the course for their career advancement, management success, professional satisfaction, personal achievements and wealth. And then to savor the experience of seeing it unfold -- even beyond their dreams.

The key, according to Lapin, is Personal Frequency Management—the conscious ability to transform “negative energy habits” to “positive energy habits.” By raising one’s personal energy transmissions, an individual can streamline the ability to tap into a Universal force the propels probability into reality.

The author of a No. 1 Amazon.com best seller, *The Art of Conscious Creation*, Lapin inspires professionals, business executives and entrepreneurs to raise the bar as they raise their thoughts, emotions and transmissions. There is so much more they can reach for when they marshal all of their considerable resources.

Lapin knows wherein she speaks. She draws on her experience as one of the nation’s leading media relations consultants with 30 years in sports, entertainment, business-to-business and consumer product publicity, serving such clients as *The World Poker Tour*, *Toyota*, *Upper Deck*, *The Golf Channel*, *the LA Marathon*, *Disney*, *Seagrams*, *Mazda*, *Avon*, *Showtime*, *NHL*, *the PGA of America*. *Top Rank Boxing* and more. Lapin began her career as one of the nation’s pioneering women sportswriters and shows how her skills at Conscious Creation landed her at the Washington Post at 23!

Over the past few years, this entrepreneur –who achieved her \$3.5 million net worth solely as a single woman--has focused on bringing those skills to the attention of the professionals whose choices determine their own fate and those of their companies and clients.

Lapin's explores how you can:

- Impact your day-to-day life (increase income, improve health, decrease stress, gain more personal freedom, reach new professional heights, etc.)
- Impact the world around you (harmonize relationships, improve working conditions at your job, ease the way in achieving your goals, transform the people you manage, build more effective teams, inspire your staff, secure greater recognition for your efforts, serve your clients more effectively, etc.)
- Impact the globe (contribute to a healthy local community through your leadership, demonstrate eco-stewardship in your company, end competitive practices and increase collaboration to drive economic sustainability and prosperity, etc.)

Lapin grounds all of this talk of personal energy in solid Quantum Physics, relating a selection of fascinating scientific studies cited in her book that validate "What We Think We Create."

In her presentation, Lapin involves the audience interactively in learning the techniques for raising one's personal frequency and Consciously Creating an unlimited and exciting professional and financial future.

Here's what the audience learns:

- Numerous ways to increase one's personal frequency, how to easily achieve one's highest vibration and become a "High Frequency Flyer!"
- Understanding why the 25 Guiding Universal Principles are the door openers for professional and financial empowerment.
- How to draught onto the one vibration in the Universe that is more powerful than any other and that can streamline success.
- The "negative energy habits" that are blocks to effective manifesting and obstacles in personal growth and how to transform them to "positive energy habits."

Conscious Creation in the Work Place

For business owners, corporate executives and employees

ReShaping Your Work Experience Through Personal Frequency Management and Vision

How often do you find yourself wishing your work environment was better, that your boss was more respectful, that your colleagues weren't so cliquish or irresponsible, that the people you supervise were more committed and responsive to your direction? Do you sometimes think about quitting and moving on?

Before you do that, hear what Jackie Lapin says about your amazing power to transform your work environment—whether it's with your superiors, your colleagues, your staff or your clients.

Her message of Conscious Creation and Personal Frequency Management is one that professionals and entrepreneurs need to experience before giving up, losing faith in themselves or taking drastic action. Everyone and everything in the work place is malleable –and your skills can shape and reshape your relationships, your stress level, and your ability to succeed when tied to the output of others.

Lapin cites specific techniques for influencing those people higher on the food chain, co-workers, group dynamics, people you supervise and the physical environment. But it all begins with how you employ your personal energy in the workplace. She proposes energetic solutions to head off anticipated problems, solve interpersonal squabbles, drive production, encourage teamwork, incentivize staff, attract clients and build revenue. And she proposes the power of vision—Conscious Creation—to unify and impel your company or your team forward to greater success and prosperity.

Here's what the audience learns:

- Work change begins with shifting one's Personal Frequency first
- The techniques of raising a person's frequency with the goal of influencing relationships and changing the future of your career
- How to transform interpersonal relationships and increase the ability to achieve the outcome of your choosing
- Ways to create greater harmony in the work space and increase motivation and cooperation between team members
- How to secure greater respect and recognition from your bosses

Jackie Lapin Biography

Jackie Lapin has been a Conscious Creator all of her life. At the age of 11, she announced to her parents that she was going to become a sportswriter, at a time when there were no women in the profession. But she knew in her heart that she would blaze a trail as one of the first. She saw herself in press boxes and locker rooms, interviewing players and then visualized her stories in the paper. It just never occurred to her that it wouldn't happen. When her father took her to an Angel game and offered for her to go down to get autographs from the players, she said in complete assurance, "I don't need to, Dad. One day I will be working with those guys." And true to her vision, at the age of 21 she was at the Detroit Free Press, at 22 she was at the Associated Press and writing front-page stories for the LA Times and at 23 Lapin was at the Washington Post.

Lapin's meteoric career has unfolded with remarkable success, and at each place along the path, she can mark the point when she began Consciously Creating the next step along the journey. She left journalism to enter media relations, eventually running one of the most highly regarded consumer marketing, sports, special events and entertainment public relations firms, handling publicity for such clients as The World Poker Tour, Toyota, PetSmart, Upper Deck, Disney, Seagrams, Mazda, Avon, Showtime, American Movie Classics, The Golf Channel, the LA Marathon, NHL, PGA of America, Top Rank Boxing, Caesars World, Heineken, Old Spice, Ice Capades, Harlem Globetrotters, ESPN Video, and more. She was instrumental in launching the worldwide poker phenomenon. Most recently she has launched a new division of her agency, Conscious Media Relations, serving the publicity needs of authors, speakers, coaches and visionaries.

In 2006, Lapin had a revelation about what had been the key to her success—The Art of Conscious Creation—and she elected to share that wisdom with others so that they could take control of their destiny, using the simple techniques of Personal Frequency Management and Visualization. She embarked on her book "***The Art of Conscious Creation, How You Can Transform the World*** (Elevate, 2007) which immediately became a No. 1 Amazon.com best seller and sensation.

Today, Jackie Lapin is a best-selling author, speaker, Conscious Creation coach, consultant and visionary leader who is inspiring people to take charge of their lives and the future of the planet. Her most recent entrepreneurial venture is ManifestBooks.com, the bookstore designated as one-stop shopping for the Conscious Creator.
